STUDENT: **What US companies are compiled in the Top-250**

TEACHER: ⇨ CANNOTANSWER

STUDENT: **How are the largest global firms picked for the Top-40 list?**

TEACHER: ⇨ CANNOTANSWER

Section:Construction3

Context: Engineering News-Record (ENR) is a trade magazine for the construction industry. Each year, ENR compiles and reports on data about the size of design and construction companies. They publish a list of the largest companies in the United States (Top-40) and also a list the largest global firms (Top-250, by amount of work they are doing outside their home country). In 2014, ENR compiled the data in nine market segments. It was divided as transportation, petroleum, buildings, power, industrial, water, manufacturing, sewer/waste, telecom, hazardous waste plus a tenth category for other projects. In their reporting on the Top 400, they used data on transportation, sewer, hazardous waste and water to rank firms as heavy contractors. CANNOTANSWER

STUDENT: **What did ENR compile in 2004?**

TEACHER: ↩ CANNOTANSWER

STUDENT: **What is a magazine for design companies?**

TEACHER: ↩ CANNOTANSWER

STUDENT: **What do global firms report on for the construction industry?**

TEACHER: ↩ CANNOTANSWER

STUDENT: **What is one thing that market segments publish?**

TEACHER: ↩ CANNOTANSWER

STUDENT: **What does a list of top 250 transportation markets published show?**

TEACHER: ↩ CANNOTANSWER

STUDENT: **In what year did the largest companies in the US compile data on nine market segments?**

TEACHER: ↩ CANNOTANSWER
